Inspector General of Prisons' Office :
Poona, 26th April 1911.

H. A. JUST,
Personal Assistant,
for Inspector General of Prisons.

No. 2955 of 1911.

From

Lieut.-Colonel J. JACKSON, M.B., I.M.S,
Inspector-General of Prisons,
Bombay Presidency;

To

The SECRETARY to GOVERNMENT,
Judicial Department,
Bombay.

Inspector-General of Prisons' Office:
Poona, 29th March 1911.

Sir

I have the honour to submit the Annual Administration Report together with the usual statistical tables on the Prisons and Jails in the Bombay Presidency (including the Province of Sind and the Settlement of Aden) for the year 1910. The office of the Inspector-General of Prisons was held by me during the year under report.

JUDICIAL.

2. The number of Central, District, Special and Extramural Prisons was increased by one during the year under report. The Special Prison at Shikárpur was opened on 1st June 1910 under the orders of Government contained in Judicial Department Resolution No. 2953, dated 26th May 1910. This Prison receives prisoners from the Upper Sind Frontier, Sukkur and Lárkhána Districts. Only prisoners sentenced to six months and under, who have had no previous conviction, are sent to this Prison. It will be interesting to watch the discipline in the Shikárpur Prison where there will be no contaminating influence of habituals. Convict officers are also promoted from the prisoners themselves, only a very few well conducted long term Convict officers having been drafted from Sukkur and Hyderabad when the Prison opened. Special remission is granted to such promoted short-term prisoners under Rule 518, Bombay Jail Manual, who discharge their duties absolutely to the satisfaction of the Superintendent. The recurring establishment expenditure of the Prison is Rs. 7,540+Rs. 4,203 for Police guard, a total of Rs. 11,643, representing at 4 per cent. a sum of about Rs. 2,87,500. The erection of additional accommodation at the Central Prison, Hyderabad, when funds are available, may be found to be a cheaper expedient for relieving the overcrowding caused by the reception of Baluchistan prisoners in the Jails of this Presidency. Statistics of all the 3rd Class Sub-Jails have been grouped together with those of Lock-ups as has been done in previous years.

3. From the general summary preceding the statements in the appendices to this report, it will be seen that the total population of all classes of Prisons, Subsidiary Jails, Lock-ups and Civil Jails, during the year 1910, has been 95,031 against 91,265, an increase of 3,766. The daily average population has been 9,559, showing an increase of 575 over the figures of the previous year.

4. The following table, which compares the figures of the past two years, refers to the admission of convicts into Prisons and 1st and 2nd Class Subsidiary Jails only :—

Statement No. 1—Number and disposal of convicts.

		1909.			1910.		
		Males.	Females.	Total.	Males.	Females.	Total.
Number remaining on last day of previous year.	Prisons	6,807	289	7,096	7,388	268	7,656
	Jails	220	10	230	201	8	209
Imprisoned during the year.	Prisons	13,350	940	14,290	14,400	977	15,377
	Jails	1,436	142	1,578	1,331	134	1,465
Total ...	Prisons	20,157	1,229	21,386	21,788	1,245	23,033
	Jails	1,656	152	1,808	1,532	142	1,674
Grand Total ...		21,813	1,381	23,194	23,320	1,387	24,707
Daily average number ...		7,224	311	7,535	7,723	274	7,997

5. There has been an increase in the number of convicts admitted. The two Bombay Prisons, the Central Prisons of Yeravda and Hyderabad, and the Prisons of Dhárwár, Kárwár, Rájkot, Sukkur and Aden show an increase; while the Ahmedabad Central Prison, and the Prisons of Dhulia, Bijápur, Ratnágiri, Thána and Karáchi show a decline. The increase in the Hyderabad Central Prison is mainly due to its being opened to admissions, which were stopped during 1909 on account of the prevalence of Cerebro-spinal Meningitis. In the Bombay Prisons, no special reason can be assigned for the increase in admissions beyond the prosecution of beggars by the Police, and under the Municipal Act for importing meat and possessing cocaine without a license. In the Sukkur Prison, the increase is due to a larger number of convictions under Chapter VIII of the Criminal Procedure Code; and in the Dhárwár and Kárwár Prisons, to convictions for petty thefts and under Section 123, Criminal Procedure Code. In the Aden Prison, the increase is attributed to the number of prisoners sentenced for returning after deportation. The increase in the Yeravda Central Prison is insignificant and requires no explanation.

6. With regard to the disposal of convicts, there is an increase under the head "Transferred to other Jails." This is due to large batches of prisoners having been transferred from the Common Prison, Yeravda, Dhulia and Dhárwár to the Deccan Convict Gang, and from Karáchi, Hyderabad and Sukkur to the Sind Gang, in order to relieve overcrowding in these Prisons. The headings "Released on appeal," "Released on expiry of sentence," "Under remission rules" and "Escaped" show an increase, while the heading "Transferred to Lunatic Asylum" and "Executed" show a decline over the figures for the year 1909. As no Royal Indian Marine Steamer was available arrangements were made with the Alipore Jail authorities, and 188 male and 19 female transports were deported to the Andamans during the year under report. Of the 34 prisoners released by order of Government, 10 prisoners were released on the ground of sickness, one each from the Karáchi and Hyderabad Prisons, 3 from the Yeravda Central Prison and 5 from the Ahmedabad Central Prison. Four *ex*-military convicts were sent to England from H. M.'s House of Correction. Eleven unfit life transports were released, 6 from Yeravda, 2 from Hyderabad, one each from H. M.'s Common Prison, Dhárwár and Karáchi. Nine prisoners, 3 from Yeravda, 2 from the Common Prison, 2 from Ratnágiri, 1 from Thána and 1 from Bijápur, were released on other grounds. The number of death show a decrease of 15, which will be commented on later. There were no State prisoners in confinement at the close of the year.

Statement No. II—Religion, Age, Education and Previous Occupation of Convicts.

7. It will be seen from the figures appearing in the statement noted in the margin that there is an increase under the sub-heads "Europeans," "Eurasians," "Native Christians" under males, "Mahomedan" and "Buddhists and Jains," while all other sub-heads show a decline. The number of juveniles admitted during the year under report was 43 against 60 in the year previous, or a decrease of 17. This is an improvement and goes to show that the orders of Government on this subject are having effect. Out of 37 male and 6 female youthful offenders convicted, 15 males and 4 females were sentenced to one month and under, 20 males to above one month and under six months, and 2 males and 2 females to above six months. Out of 43 admitted, 9 males and 1 female had previous convictions. Of the total number of 43 juveniles admitted, 14 were sent to the Reformatory by the District Magistrates on reference by the Prison authorities, thus leaving 29 juveniles who underwent imprisonment. Of these one male aged 13 was sentenced to transportation for life for murder, one female (13), a ghantichor, 4 months for theft, one female (15) 6 years under Section 307, one female (13), one year under Sections 201, 511, 414, one male (14), with one previous conviction, to 2 months under Section 379, one male (14), with 2 previous convictions, 9 months under Section 380, one male (13), with one previous conviction, to one month simple imprisonment for theft. One only got a day and therefore did not enter the Prison, 3 were released on appeal or on bail, and two were sentenced to one month each in Aden for return after deportation. The following cases should, I consider, never have been sent to Jail; short sentences serve no good purpose and merely take away

from a child the dread of Prison. Nor does it seem rational to call on boys of 14 to furnish security.

Name.	Sex.	Age.	Sentence.	Crime.	Previous Convictions.	Prison.
M. K. ...	Male ...	13	1 month's rigorous imprisonment	Section 43 of Act V, 1878.	*Nil.* ...	Sábarmati.
K. S. ...	Male ..	14	6 months' rigorous imprisonment.	123	„ ...	Do.
S. S. ...	Male ...	10	15 days' rigorous imprisonment.	379	Once (7 stripes).	Karáchi.
R. N. ...	Male ...	12	2 months' rigorous imprisonment and Rs. 20 or 15 days' rigorous imprisonment.	454, 380, 409	*Nil.* ..	Kárwár.
B. R. ...	Male ...	14	Rs. 0-15-9 or 2 days' simple imprisonment.	Section 112, Act IX, 1890.	„ ...	Godhra..
M. S. ...	Male ..	12	20 days' rigorous imprisonment.	379	„ ...	Ratnágiri.
B. C. ...	Male ...	11	10 days' rigorous imprisonment.	448, 380	„ ...	Wadhwán.
N. W. ...	Male ...	13	4 days' rigorous imprisonment.	411	„ ...	Do.
B. W. ...	Male ...	10	4 days' rigorous imprisonment.	411	„ ...	Do.
N. K. ...	Male ..	14	15 days' simple imprisonment.	381	„ ...	Yeravda.
R. G. ...	Male ...	13	7 days' simple imprisonment	Begging. ...	„ ...	Common. Prison.
M. Y. ...	Male ...	15	3 days' simple imprisonment.	Begging. ...	„ ...	Do.
H. L. ...	Male ...	13	1 month's rigoroue imprisonment.	Abkari Act ...	„ ...	Tháua.
B. S. ...	Male ...	14	1 month's rigorous imprisonment.	380	„ ...	Dhárwár.
S. P. ..	Male ...	14	1 year's rigorous imprisonment.	123	„ ...	Bijápur.

All other sub-heads with the exception of "above 60" show an increase. Under the head "Education of convict" the sub-head "Able to read and write" under females shows a decrease of one over the figures for the past year, while all other sub-heads show an increase. With the exception of the sub-heads "Professional persons," "Persons engaged in agriculture" and "Miscellaneous persons not classified otherwise," all other sub-heads show a decline over the figures of the previoue year. The percentage of the total number admitted to free population according to the census of 1901 is 0·164 during the year as compared with 0·155 in 1909.

Statement No. III—Nature and length of sentence.

8. There has been a decrease under the heads "Above one and not exceeding three months," "Exceeding ten years," "Term transports" and "Sentenced to death," while all other heads show an increase. There were 1,226 prisoners sentenced to simple imprisonment, 15,249 sentenced to rigorous imprisonment and 23 sentenced to rigorous imprisonment with whipping as compared with 1,044, 14,371 and 94 in the year previous. The number of prisoners sentenced to rigorous imprisonment with solitary confinement was 344 as compared with 359 in 1909, 349 in 1908 and 406 in 1907. Proper accommodation for carrying out sentences of solitary confinement is still needed in many Jails, and many of the sentences could not be carried out for lack of solitary cells. 5,448 prisoners were sentenced to "not exceeding one month" as compared with 5,183 in 1909. Of these 2,885 were admitted to the Common Prison, Bombay.

Statement No. IV—Reconvictions.

9. The statement noted in the margin deals with the re-convicted prisoners. The number of habituals identified by Jail officials has fallen from 288 in 1909 to 276 in the year under report. 1,667 were classified as habituals out of a total of 2,917 previously convicted prisoners against 1,810 out of 3,358 in the year 1909. This statement does not include 1,747 prisoners sentenced under Chapter VIII of the Criminal Procedure Code, but who, under the orders of Government, are always treated as habituals. Of this number 1,201 were sentenced in Sind.

1	2	3	4	5	6	7
No.	Prisons.	Number of convicts admitted during the year. 	1908 ...	14,282	1,734	208	5	1,967

10. It appears from the information supplied by the Inspector General of Police that 1,432 persons were identified in the Bombay Presidency inclusive of Sind as compared with 1,405 in the year previous. Out of the 1,432 prisoners, 157 were identified in Bombay, 103 in Dhárwár, 171 in Dhulia, 131 in Thána, 208 in Ahmedabad, 231 at Yeravda, 33 in Kárwár, 49 in Ahmednagar, 55 in Belgaum, 74 in Násik, 41 in Sátára, 55 in Sholápur and the rest in other parts of the Presidency.

11. I have little to add to my remarks on the habitual question made in previous reports. But I subjoin some cases to show the futility of our present methods of dealing with the question.

L. M., aged 35, classed habitual, sentence 5 years under 379 on 4th April 1908. Previous convictions:—(1) Theft, 3 months' rigorous imprisonment; (2) Theft, 6 months' rigorous imprisonment; (3) Theft, 12 months' rigorous imprisonment; (4) 123, Criminal Procedure Code, 6 months; (5) Theft, 2 years; (6) 406, 1 year; (7) Theft, 2 years; (8) Theft, 8 months; (9) Theft, 6 months; (10) Theft, 2 years; (11) 52 of Act IX, 4 months; (12) Theft, 2 years and 18 stripes; (13) Theft, 2 years; (14) Theft, 2 years, or a total of 16 years and 9 months in about 20 years.

N. V., aged 32, classed habitual, sentence 5 years for theft on 4th April 1908. Previous convictions:—(1) Theft, 3 years Reformatory; (2) Theft, 12 stripes; (3) Theft, 12 stripes; (4) Theft, 3 months; (5) Theft, 3 months and 12 stripes; (6) Theft, 3 months and 26 stripes; (7) Theft, 6 months and 20 stripes; (8) Theft, 9 months and 20 stripes; (9) Theft, 1 year; (10) Theft, 6 months and 25 stripes.

K. K., aged 24, classed habitual, sentence 2 years' rigorous imprisonment with 3 months' solitary confinement and to report for 4 years. Previous convictions :—(1) Theft, 15 days' rigorous imprisonment; (2) Theft, 3 months; (3) Theft, 1 month and Rs. 10 or 1 month; (4) Theft, 6 months; (5) Theft, 10 days; (6) Theft, 6 months and report for 3 years; (7) Theft, 1 year and 2 months' solitary confinement (this within a month of his release); (8) Theft and 114, 18 months with 3 months' solitary confinement; (9) Theft, 2 years with 3 months' solitary confinement. A total of 5 years, 4 months and 21 days out of 8 years.

I will now give a few cases to illustrate the gradual formation of the habitual criminal and his adaptation to prison life by the method adopted in Bombay. I may remark that the habitual in the City of Bombay is the most pressing portion of the recidivist problem in the Presidency :—

K. C., aged 22, present sentence 5 months' rigorous imprisonment on 25th January 1910. Previous convictions :—(1) 1st July 1909, 380, 14 days; (2) 5th March 1909, 379, 1 day's simple imprisonment and Rs. 15 or 7 days; (3) 2nd October 1909, 380, 14 days' rigorous imprisonment; (4) 15th November 1909, 457, 380, 2 months' rigorous imprisonment.

O. S., aged 20, present sentence 5 months' rigorous imprisonment on 27th January 1910. Previous convictions:—(1) 15th August 1908, 380, 15 days' rigorous imprisonment; (2) 28th September 1908, 379, 2 months; (3) 27th May 1909, 380, 5 days; (4) 27th August 1909, 112 (*d*), Act IV of 1902, 15 days.

F. S., aged 25, present sentence 6 months' rigorous imprisonment on 14th April 1910. Previous convictions:—(1) 6th September 1907, gaming, Rs. 5 or 7 days; (2) 13th November 1907, gaming, Rs. 5 or 7 days; (3) 27th April 1908, Section 114, Act IV of 1902, Rs. 10 or 7 days; (4) 23rd July 1908, 379-114, 21 days; (5) 18th August 1908, 379, 1 month; (6) 2nd January 1909, 380, 15 days; (7) 26th July 1909, 380, 14 days; (8) 7th August 1909, Section 114, Act IV of 1902, Rs. 5 or 5 days; (9) 10th September 1909, 379, 6 months.

B. G., aged 22, present sentence 1 year on 3rd January 1911. Previous convictions :—(1) 10th December 1907, 379, 15 days; (2) 8th February 1909, 379, 1 month; (3) 29th May 1909, 379, 15 days; (4) 9th August 1909, 379, 7 days; (5) 28th October 1909, 379, 4 months.

S. K., aged 19, present sentence 18 months on 12th November 1910, under Section 411, Indian Penal Code. Previous convictions:—30th March 1901, Section 22, Act IV of 1902, Rs. 2 or 2 days' rigorous imprisonment; (2) 4th May 1901, Section 22, Act IV of 1902, Rs. 2 or 2 days' rigorous imprisonment; (3) 4th December 1901, Section 22, Act IV of 1902, Rs. 3 or 3 days' rigorous imprisonment; (4) 4th June 1902, Section 22, Act IV of 1902, 10 days' rigorous imprisonment; (5) 7th July 1902, Section 22, Act IV of 1902, 14 days' rigorous imprisonment; (6) 24th July 1902, 379, 24 stripes; (7) 12th August 1902, Section 22, Act IV of 1902, 7 days' rigorous imprisonment; (8) 26th September 1902, Section 22, Act IV of 1902, 8 days' rigorous imprisonment; (9) 5th December 1902, 406, 1 month's rigorous imprisonment; (10) 10th January 1903, 380, 3 months' rigorous imprisonment; (11) 15th May 1903, Section 22, Act IV of 1902, Rs. 4 or 7 days' rigorous imprisonment; (12) 17th June 1903, Section 22, Act IV of 1902, 7 days' rigorous imprisonment; (13) 3rd September 1904, 379, 5 months' rigorous imprisonment; (14) 8th June 1905, Section 22, Act IV of 1902, 8 days' rigorous imprisonment; (15) 8th June 1905, Section 22, Act IV of 1902, 7 days' rigorous imprisonment; (16) 8th June 1905, Section 22, Act IV of 1902, 8 days' rigorous imprisonment; (17) 12th October 1905, Section 22, Act IV of 1902, Rs. 25 or 3 months' rigorous imprisonment; (18) 18th January 1906, Section 22, Act IV of 1902, Re. 1 or 8 hours' rigorous imprisonment; (19) 18th January 1906, Section 22, Act IV of 1902, 7 days' rigorous imprisonment.

These are not isolated cases, our Jails are full of such. I therefore reiterate that for the confirmed habitual there should be an indeterminate sentence, for the first conviction prisoner of youthful years, not yet inured to crime, classes such as at Dhárwár of a better kind, and for the youth under 22, who has been convicted previously, a Borstal Institution. Dealing with the question properly means expenditure recurring and non-recurring; but habituals form a steady and ever increasing recurring expenditure to Government, who pay for the Police, the Magistracy and Judiciary, and to the public, on whom they prey.

Statement No. V.—Escapes.

12. The number of escapes during the year under report has been 9 against 7 in the year previous. Of the 9, 7 escaped from extra-mural files and two from inside the Prisons. Of the former, 3 escaped from the Ahmedabad Central Prison, 2 from the Sukkur Prison and one each from the Deccan Convict Gang and the Sholápur Jail. The circumstances under which two prisoners effected their escape from inside the Karáchi Prison have already been reported to Government in this office letter No. 24, dated 4th January 1911. The Convict Overseer has been punished departmentally and the Head Warder and Warders concerned were prosecuted, but were acquitted. They have been since dismissed the service. I may mention that these men admitted the grossest slackness and disobedience of orders before me. Before the Magistrate they retracted everything and denied that the orders had been given. Two prisoners from the Sukkur Prison effected their escape from police custody while on their way to the Court. A prisoner from the Dhulia Prison, who was being sent under Prisoners' Testimony Act to stand his trial before the First Class Magistrate, East Khándesh, jumped from the train near the Páchora Railway Station and was killed, the train going over him.

Statement No. VI—Offences and Punishments.

13. The statement noted in the margin relates to offences committed by and the punishments awarded to convicts confined in the Prisons and the 1st and 2nd Class Subsidiary Jails. The offences dealt with by Criminal Courts show a decrease of 25 over the figures for the year previous as will be seen from the details given below :—

	1909.	1910.
Section 52, Prisons Act.		
Relating to work	21	14
Indian Penal Code.		
Escapes	8	3
Assaults	13	2
Attempt to commit suicide	2	...
Criminal intimidation	1	...
Mischief	1	...
Unnatural offence	1	...
Murder and attempt to murder	...	3
Total ...	47	22

14. It will be observed from the following table that the number of offences has risen from 21,086 to 22,455, or an increase of 1,369 over the figures for the year previous :—

	1909.		1910.	
Offences dealt with—				
By Criminal Courts	47		22	
	Dealt with by minor punishments.	Dealt with by major punishments.	Dealt with by minor punishments.	Dealt with by major punishments.
By Superintendents—

Total ...	13,383	7,703	14,597	7,858

15. The following table shows the nature of punishments awarded during the past two years. It will be seen that the total number of major and minor punishments awarded by the Superintendents during the year under report was 22,870, and the total number of offences 22,455. The difference is due to 415 offences having been dealt with during the year 1910 by the award of combined punishments :—

	1909.	1910.
Punishments inflicted—		
By Criminal Courts	45	22
By Superintendents—		
Warnings	2,498	3,263
Penal diet	3,126	2,213
Separate, cellular and solitary confinement	66	68
Hand-cuffing and link fetters	3,851	3,669
Other punishments	4,222	5,628
Total ...	13,763	14,841
Separate, cellular and solitary confinement	402	485

Fetters or hand-cuffing behind or to a staple	3,830	4,156
Corporal punishments	95	97
Combination of minor punishments	116	54
Other punishments	3,267	3,110
Total ...	7,880	8,007
Grand Total ..	21,643	22,870

16. Out of the 22,870 punishments awarded by the Superintendents of Prisons and Jails, 14,841 or 65 per cent. belong to the minor class, and 8,007 or 35 per cent. belong to the major. All the heads under minor punishments except "Penal diet" and "Hand-cuffing and link fetters" show an increase. There is a decrease under major punishments under the heads "Penal diet with solitary confinement," "Combination of minor punishments" and "Other punishments," while all other heads show an increase. The Prisons of Bijápur, Thána, Rájkot, Karáchi, Hyderabad, Sukkur, Common Prison and Sind Gang show an increase, while all other Prisons show a decline. The increase (60) in Bijápur is due to more punishments for short work and bad work : in Thána (277) to punishments for short work, chiefly falling on the habituals : at Karáchi (264) to more punishments for work and breaches of Jail discipline : at Hyderabad (3,878) to an increase in the prison population, the raising of tasks to their former level after the cessation of the epidemic of Cerebro-spinal Meningitis, and the general tightening of discipline under a new Jailor and Superintendent—this was much needed : Sukkur (165) to an increase in the Prison population : the Common Prison (49) to an increase in admissions : Sind Gang (400) to a largely increased population. In the Ahmedabad Central Prison the decline is due to prisoners on tailoring work having become more adept at the work and settled down to it. Last year the punishments in this particular work were heavy. The Superintendent, Yeravda Central Prison, explains that the decrease in the punishments in his Prison is due to the frequent resort to prolonged separate confinement in the case of ring-leaders and

men of persistent bad behaviour. In work 1,738 less—here prisoners gave less trouble in grinding grain, the weavers also did their task better; and the diminution in prohibited articles (223) and other breaches of Jail rules (948) may be due to the fact that a year's stern discipline had the desired effect. The explanation of the Superintendent probably accounts for the considerable reduction in assaults (68). Out of a total of 22,455 offences, 2,803 habituals were responsible for 11,613 and 4,516 non-habituals for the balance of 10,842 offences. The actual percentage of habituals is 20·3. From the above it will be seen that only 7,319 prisoners were punished and the number who actually had passed through the Prisons and Jails was 24,707. Very many of these prisoners were only punished once, the punishment frequently being only a warning; 3,263 warnings were actually given. Of the total number of punishments, 1,874 were inflicted on convict officers for negligence in the discharge of their duties.

17. The subjoined table gives particulars as to the number of stripes inflicted on prisoners in our Prisons during the year under report. It will be seen that although the total number of corporal punishments shows an increase of one only over the figures for the past year, there is an increase in certain Prisons. These are Dhárwár, Thána, Hyderabad, Sind Gang and Aden. Out of the 21 corporal punishments inflicted at Yeravda against 37 last year, 9 were awarded to habituals. The 21 floggings were inflicted for the following offences:—Mutinous behaviour and refusal to work 1; Mutinous behaviour and indecent language 1; Refusing to work and inciting others to do the same 3; Contumaciously refusing to work 6; Gross indecency 1; Inciting to mutiny and threatening assault 1; Assault 6; Persistent short work $\frac{1}{18}$ of task 1; Malingering 1. In Hyderabad 12 for assault ond 9 for persistent short work and refusing to work. In Ahmedabad 2 for mutinous conduct and 9 for persistent short work and refusing to work. In Aden 5 floggings were inflicted on one date for persistent short work in grinding. All had been warned that they would be flogged if they persisted in only doing half task. 4 for assault, 2 for absolutely refusing to work and 3 for persistent short work. In the last named Prison, the prisoners are mostly Somalis and Arabs and they are often of bad character and turbulent; and this explains the number of floggings in this Prison, supplemented by the fact that the Jailor, now on furlough, was a weak and timid man. I expect the Superintendent will have less trouble now.

18. During the year under report, 8,056 prisoners were fettered as compared with 7,498 during the year previous. The increase is due to the increased number of punishments awarded.

REMISSION SYSTEM.

19. It will be seen from the figures appearing in Statement C appended to this report that 2,717 prisoners were released during the year under remission system as compared with 2,467 in the previous year. The percentage during the year 1910 of those released under remission system to the total number who might have been released under that system if of average good conduct up to the date of release, was 97·6 against 97·5 in 1909. The practice of mustering prisoners and reading and explaining to them the benefits of the remission rules has been continued. Special awards under Rule 513—remission for committing no offence during the previous 12 months—were granted to 1,105 prisoners as against 1,054 in the year previous. The new remission system continues to work well.

Statement No. VII—Convict Officers.

20. The average number employed as prison officers during the year under report in our Prisons and 1st and 2nd Class Subsidiary Jails was 990 males and 12 females against 950 males and 11 females in 1909. Nearly every Prison complains of the difficulty in getting good convict officers and the steady deterioration in their quality. In some Jails I have directed the promotion of men under a year's sentence and am carefully watching the result.

Statement No. VIII—Diet.

21. The statement noted in the margin shows the different diet scales in prisons and in 1st and 2nd Class Subsidiary Jails. These scales have been found to work satisfactorily. Such changes as have been made during the year are noted in the fifth column of this statement.

Statement No. XVIII—Under-trial prisoners.

22. The statistics of under-trial prisoners confined in our Prisons, Jails and Lock-ups are embodied in the marginally noted statement. The number admitted during the year under report shows an increase of 1,875 over the figures for the year previous. The daily average strength has also risen from 1,392 in 1909 to 1,504 in 1910 due to increased admissions.

23. The number of escapes is the same as in 1909. Of the 14 escapes, 4 took place from the Subsidiary Jails in the district of Upper Sind Frontier, 3 from the Hyderabad District, one male and one female from the Ahmedabad District, and one each from the districts of Sukkur, Lárkhána, Násik, Broach and Panch Maháls.

24. The number of deaths shows a decrease of 4 on the figures for the year previous. Out of the 18 deaths, 2 occurred in the prisons, one in 1st and 2nd Class Subsidiary Jails and and 15 in the 3rd Class Subsidiary Jails and Lock-ups. Of the 15 deaths, 3 from Cholera, 6 from Pneumonia, 2 from Diarrhœa, 1 from Dysentery and 1 from compression of brain. Two prisoners committed suicide, one in the Hungund 3rd Class Subsidiary Jail in the Bijápur District and the other in the Dohad 3rd Class Subsidiary Jail in the Panch Maháls District.

25. The number remaining on 31st December 1910 was 270 males and 22 females in Prisons, 89 males and 6 females in the 1st and 2nd Class Subsidiary Jails and 901 males and 51 females in the 3rd Class Subsidiary Jails and Lock-ups, thus making a total of 1,260 males and 79 females.

Civil Prisoners.

26. In the beginning of the year 1910, there were 64 males in the Civil Jails. The number admitted during the year was 846 male and 3 female prisoners. 854 males and 3 females were released and one male escaped from the Hyderabad District during the year under report, thus leaving a balance of 54 males at the close of the year 1910. The daily average number has been 58 as against 57 in the year previous. The total cost and cost per head have respectively been Rs. 5,748-1-6 and Rs. 99-1-8 during the year under report as against Rs. 5,790-1-3 and Rs. 101-9-3 in the year previous.

FINANCIAL.

Statements Nos. IX and X—Expenditure.

27. The statements noted in the margin deal with the gross expenditure on account of convicted and under-trial prisoners confined in the Central, District and Extra-mural Prisons, and the Subsidiary Jails and Lock-ups. The cost of Police guards has been omitted as usual except in the case of the Central Prisons of Yeravda and Ahmedabad and the Special Prison of Thána, where the guarding is undertaken by the Reserved Armed Warder Guard. The realization from the sale-proceeds of garden produce has been deducted from the total charges. The gross expenditure during the year 1910 has been Rs. 9,22,268 and the cost per head Rs. 97-1-2 against Rs. 8,76,134 and Rs. 98-2-4 in the year previous.

Establishment.

28. The total cost and the cost per head under this head have risen from Rs. 2,98,656 and Rs. 33-7-4 in 1909 to Rs. 3,19,996 and Rs. 33-10-11, or an increase of Rs. 21,340. The increase is entirely due to the revision of the warder establishment, additional hands for the Prison Press, the entertainment of an Assistant Surgeon for the Yeravda Prison Hospital, and the opening of the Shikárpur Prison.

Dietary Charges.

29. The total cost has risen from Rs. 3,95,678 in 1909 to Rs. 4,09,657 in 1910, but the cost per head has fallen from Rs. 44-5-2 to Rs. 43-1-11 respectively. The increase in the cost is entirely due to the increased population during the year under report. The fall in cost per head is due to slightly more favourable contract rates.

Garden.

30. The value of vegetables and other supplies from the gardens attached to our Prisons and Jails shows an increase of Rs. 1,715 over the figures for the year 1909, the figures being Rs. 18,995 against Rs. 17,280 in the year previous. The increase in Thána Rs. 959, Sind Gang Rs. 530 and Karáchi Rs. 208 is due to the Superintendents; that in Dhárwár Rs. 446, Ahmedabad Rs. 408 and Hyderabad Rs. 636 to Superintendents and Jailors. There was a decrease at Kárwár owing to the seedlings being twice destroyed by heavy rains. Yeravda shows a heavy decrease Rs. 1,330 and the gardening operations there will require special attention from the Superintendent and Jailor.

Hospital Charges.

31. The total cost and cost per head under "Hospital Charges" have risen from Rs. 36,836 and Rs. 4-2-0 in 1909 to Rs. 40,227 and Rs. 4-3-9 in the year under report. The increase is mainly due to the issue of extras to weakly prisoners in the Ahmedabad Central Prison, the average number being 47 in 1910 against 9 in 1909; and also to the cost of medicines purchased by the Yeravda Central Prison in 1909 and adjusted in 1910.

Clothing and Bedding.

32. The expenditure under this heading has risen from Rs. 32,002 in 1909 to Rs. 36,403 in 1910. The increase is due to articles of clothing having been manufactured by the Hyderabad Central Prison for an increased population, to the greatly increased price of cotton yarn, and to the opening of the Shikárpur Prison. The cost per head has also risen from Rs. 3-9-4 in 1909 to Rs. 3-13-4 in 1910.

Sanitation Charges.

33. The total cost has risen from Rs. 20,069 in 1909 to Rs. 20,776 in the year under report. The increase is mainly due to the entertainment of paid sweepers at Aden, convicts of a suitable caste not being available; also in the 3rd Class Subsidiary Jails and Lock-ups to the transfer of charges for sweepers from establishment to sanitation charges. The cost per head has fallen from Rs. 2-4-0 in 1909 to Rs. 2-3-0 in 1910.

Charges for moving Prisoners.

34. This head shows an increase of Rs. 2,904, the figure for 1910 being Rs. 32,707 and Rs. 3-7-1 as against Rs. 29,803 and Rs. 3-5-5 in 1909, due to the increased number of transfers and to the deportation of transports during the year under report.

Charges for other Miscellaneous Services and Supplies.

35. The total cost under this head shows a decrease of Rs. 1,691, the figures being Rs. 33,113 and Rs. 3-7-9 as against Rs. 34,804 and Rs. 3-14-5 in the year previous.

Travelling Allowance.

36. This head shows an increase of Rs. 623 over the figures for the year previous. The increase is due to the inspection of Aden Prison and to more frequent inspections.

Contingencies.

37. The expenditure under this heading shows a decrease of Rs. 866, the figures being Rs. 16,682 and Rs. 1-12-1 as against Rs. 17,548 and Rs. 1-15-5 in the year previous.

Extraordinary Charges for Live Stock, Tools and Plant.

38. The total cost and cost per head have risen from Rs. 6,507 and Re. 0-11-8 in 1909 to Rs. 7,853 and Re. 0-13-2 during the year under report. The increase is mainly due to the purchase of Dead Stock Articles for the newly opened Shikarpur Prison.

Statement No. XI—Employment of Convicts.

39. The statement noted in the margin deals with the employment of convicts in our Prisons and 1st and 2nd Class Subsidiary Jails. It will be seen that the total number of prisoners sentenced to labour has risen from 7,394 in 1909 to 7,845 in the year under report. The figures for the 1st and 2nd Class Subsidiary Jails show a decline of 26 over the figures for the past year. All the heads with the exception of "Manufactures" show an increase which is due to large transfers to the Deccan and Sind Gangs during the year under report. The number of prisoners employed on extra-mural works shows an increase of 136 over the figures for the year previous.

Statement No. XII—Net Cash Earnings.

40. The marginally noted statement deals with the net cash earnings of convicts sentenced to labour. The cash earnings have increased from Rs. 90,145 in 1909 to Rs. 2,27,924 in the year under report, or an increase of Rs. 1,37,779. The Prisons of Yeravda, Bijápur, Ahmedabad and Sukkur, and Deccan and Sind Gangs show an increase, while all other Prisons show a decline. The decline is most marked in the Prisons of Hyderabad, Thána, Karáchi, Aden and Common Prison. One general cause applicable to all Prisons is the enhanced price of cotton yarn.

Hyderabad Central Prison.—The decrease in factory profits is more apparent than real. The drawings are more than the payments, but the amount of outstanding debt due to the Prison is Rs. 6,190, *i.e.*, nearly double the amount for the last year.

The decline in the profits of the Thána Special Prison is mainly due to a smaller number of prisoners employed in the factory during the year under report.

In the Common Prison, the decrease is due to a decreased number of prisoners employed on manufactures owing to a diminished demand for convict clothing by other Prisons.

In the Aden Special Prison the fall is to be attributed to fewer orders for Jail-made articles and to the admission of short-term prisoners—169 were under 1 month and only 23 over 3 months.

Karáchi.—Here the decrease is due to more raw material on hand, more manufactured articles on hand, more outstanding debts.

The decrease in the House of Correction is largely due to the dislocation of ordinary Prison arrangements by the under-trial prisoners in the Násik conspiracy case.

In Dhulia, Kárwár, Rájkot, the decrease is small and covered by the rise in cotton and the ordinary fluctuations in orders; that in Ratnágiri is due to the smaller number of prisoners employed in the factory.

The Dhárwár Prison shows a minus profit due to the following reasons :—

(1) Falling off of orders, the station is now a much smaller one since the Head Quarters of the Southern Mahrátta Railway have been shifted.

(2) Larger stock of manufactured articles in hand than at close of last year.

(3) Larger stock of raw material than at close of last year.

(4) Rs. 1,000 more debts due to Prison outstanding than at close of last year.

41. In the Yeravda Central Prison out of Rs. 1,53,541, the Prison Factoy shows a profit of Rs. 17,776, while Rs. 1,35,548 represents the profits of the Press. The profit earned by the Prison is largely fictitious as a sum of Rs. 14,400 was due by the Prison at the close of the year for quinine purchased during the year. The large increase in the Press is due to increased output and less drawings for raw materials during the year under report. Out of the sum of Rs. 2,27,925, mentioned at the commencement of this paragraph, a sum of Rs. 1,98,830 represents the profits of our Prison Factories, Rs. 27,671 of Extra-mural labour and Rs. 1,423 of our 1st and 2nd Class Subsidiary Jails. The average cash earnings per head of those sentenced to labour and of those employed on manufactures in the case of Prisons and 1st and 2nd Class Subsidiary Jails have risen from Rs. 12-3-0 and Rs. 33-15-0 in 1909 to Rs. 29-1-0 and Rs. 83-1-0 respectively during the year under report.

42. During the year under report Jail-made articles of the value of Rs. 58,111, as detailed below, were sold to Government Departments against Rs. 22,016 in the year previous, or an increase of Rs. 36,095, which is due to the supply of clothing to the Police Department. The Central Prison at Sábarmati now supplies all the cotton clothing of the Police in the Presidency proper. The Inspector General of Police is, I understand, satisfied with the work done. The quality of cloth and the manner in which it is made up will steadily improve. It has been a difficult task to teach the prisoners tailoring; in the usual spirit they objected at first to a new kind of work. I trust that in the course of time this prison will undertake more work of a similar kind for other Government Departments. The Superintendent and Jailor of the Sábarmati Central Prison deserve credit for the success of this contract. Careful supervision of work and painstaking checking of details were necessitated and ungrudgingly given. It is somewhat unfortunate that the extraordinary rise in the price of cotton should have occurred as it hits the Prison profits hardly; however the loss of the Prison Department is the gain of the Police,

	Rs.
Public Works Department	3,014
Telegraph Department	587
Other Civil Departments	51,519
Marine Department	2,506
Military Department	385
Ordnance Department	100

Sind Gang.

43. This Gang was located at Ganja Takar near Hyderabad throughout the year. With an average population of 573, the Gang has earned Rs. 20,290-7-0 in 1910 against Rs. 16,440 with an average of 432 prisoners in the year previous. The increase is mainly due to the sale of metal. Throughout the year the prisoners were employed on breaking metal in the quarries near the Camp. In July 480 convicts were supplied to repair breaches in the North-Western Railway, about 40 miles from Hyderabad, caused by the heavy rain that fell. The work was done in two days to the complete satisfaction of the Railway authorities.

Deccan Gang.

44. This Gang was located at Visápur in the Ahmednagar District throughout the year. With an average of 675 prisoners the Gang has earned Rs. 7,379 in 1910 against Rs. 6,550 with an average of 600 in the year previous. The increase is due to the average number employed on works being more than in the year previous.

45. The net profit of the Quinine Industry in the Central Prisons of Yeravda and Hyderabad amounted to Rs. 7,430-10-8 during the year as against Rs. 3,682-15-2 in 1909. The Central Prison of Yeravda shows a profit of Rs. 6,596-1-11, while a sum of Rs. 834-8-9 represents the profits of the Hyderabad Central Prison. The value of quinine, packing materials, service stamps and establishment charges amounted to Rs. 26,521-1-2 during the year as against Rs. 24,252-13-11 in 1909, and the amount paid into the Treasury during the year under report was Rs. 29,335-6-9 as against Rs. 27,841-10-7 in the year previous. The dose of quinine was raised from 7 to 10 grains without any increase in the price of the article from the 1st August 1910, *vide* Government Resolution, General Department, No. 6545, dated 23rd December 1909.

Sale of quinine packets.

46. In addition to supplying the requirements of this Department, the Yeravda Prison Press has, during the year under report, printed forms for all Government Departments with the exception of the Civil Medical Forms. The total number of forms, envelopes and books supplied to all the Departments was respectively 54,616,417, 14,317,485 and 648,394 against 29,277,944, 9,469,925 and 241,531 in the year previous. The net profit is Rs. 98,188 against Rs. 94,313 in the year previous. The profits of the Press are based on a schedule which has been in use in the Government Central Press, Bombay, since 1887. It is admittedly very inaccurate and the Press profits are calculated at a rate 25 per cent. less than those in that schedule, in order to obviate a false profit: though evidently, if the schedule was ever correct, the rate would be higher now as the price of labour has gone up enormously. However, it is hard to say whether this is a genuine profit or not; in any case there is not much point in a Government Press showing a profit against Government. During the past year, the Press accounts have been kept also on a unit system which the Controller of Printing approves. Where the true profit lies is, can the following question be answered in the affirmative? Does the Press at Yeravda turn out the work cheaper than the Central Press in Bombay could? I believe the answer to be in the affirmative, but the question is one which can only be correctly answered by an expert—for instance the Controller of Printing—who has no interest in either Press. It must be remembered that the charge of maintenance of prisoners, which of course is the heaviest item the Press has to meet, is one that Government has to pay whether the Press exists or not, and the introduction of the Press industry has led to the abolition of the old industries and the abandoning of old connections. To re-establish the one and renew the other would take years. If it is once settled that the Press is a genuinely paying concern bringing in a good return on capital expenditure, I could then approach Government for a small extra disciplinary staff which would obviate the purely Prison administrative difficulties that have arisen. I have always been strongly opposed to power machinery in Jails, but the Press is there and if it is once decided that it has the saving merit of being a really profitable investment for Government, it only remains to make it as innocuous from the penal and reformatory point of view as possible.

47. The statement noted in the margin shows the total cost of maintenance for all Prisons, Subsidiary Jails and Lock-ups. The total expenditure, excluding charges for inspection and general superintendence, has amounted to Rs. 8,75,814 during the year under report against Rs. 8,30,113 in 1909, or an increase of Rs. 45,701. The total cash earnings have been Rs. 2,27,924 against Rs. 90,145 in the year 1909, thus making a net cost to Government of Rs. 6,47,890 during the year against Rs. 7,39,968 in the year previous. The average net cost to Government per prisoner has been Rs. 68-3-0 against Rs. 82-14-0 in the year previous.

Statement No. XIII—Net Cost.

VITAL.

48. The statement noted in the margin deals with the sickness and mortality of all classes during the year. The following table compares the figures for 1909-1910 of prisoners confined in the Central, District, Special and Extra-mural Prisons, Subsidiary Jails, Civil Jails and Lock-ups :—

Statement No. XIV—Sickness and Mortality.

Year.	Daily average strength.	Admissions into Hospital.	Daily average sick.	Total number of deaths.	Ratio of deaths per mille.
1909	8,984	5,634	229·0	157	17·5
1910	9,559	5,354	221·4	137	14·3

49. The death rate for the year is 14·3, the lowest one recorded for the Bombay Presidency. Of the 118 prisoners who died in our prisons, 27 were admitted in bad health, of whom 22 were suffering from the disease from which they died; 33 in fair health and the remainder, 58, in good health. Three of the deaths can certainly not be attributed to any defect in Jail hygiene, *viz.*, fracture skull (2) one an accident and one a murderous assault by another prisoner; and the case of a prisoner who was killed leaping from a train.

50. There has been only one case of plague during the year. The prisoner was admitted on the 13th November 1909, inoculated on 24th March 1909, released on bail on 1st December 1909, re-admitted on the 1st March 1910 and died of plague on 5th March 1910. Wherever plague was prevalent inoculation was resorted to with satisfactory results. A steadily diminishing Jail mortality coincident with free resort to inoculation disposes of the reckless statement sometimes made that inoculation is prejudicial to health.

51. There was constant overcrowding in the following Prisons:—His Majesty's Common Prison, Sábarmati, Dhárwár, Sukkur, Sind Gang. Slight overcrowding in Bijápur in November and December, in the female wards in Rájkot for 4 months and in the male wards of the same prison for 3 months. Slight overcrowding in Yeravda for 72 days, and in Hyderabad Central Prison in the under-trial and quarantine yards in July and August. Overcrowding existed in Karáchi during June, July and few days in August. The overcrowding in the Common Prison cannot be avoided, constant transfers of all long-termers were made, and the surplus population slept in the coir sheds. In Sábarmati the congestion was relieved by a well-ventilated factory shed which is not used during the day. The Dhárwár overcrowding was relieved as far as possible by transfer. So also in Sukkur, where the surplus population slept in the open. In the Sind Gang the excess number of prisoners slept in the open. The overcrowding here was produced by the drafting from Sukkur and Karáchi to relieve those prisons. In Karáchi the short-termers slept in the verandahs. The congestion in the Sind Prisons was produced by the great number of prisoners sentenced under section 123, Criminal Procedure Code.

52. The following prisons which show a death-rate of over 15 per mille are dealt with in detail:—

Sábarmati Central Prison, 19·1 per mille. There were 18 deaths, one due to an accident, one Fibrosis of lung—the prisoner was admitted suffering from the disease, 5 Diarrhœa 4 of whom were admitted in fair health, 1 Rupture of Aortic aneurism, 1 Pyrexia of uncertain origin, 1 Tubercle of peritoneum, 1 Cirrhosis of Liver, 3 Debility, 1 Dropsy, 1 Malaria, 1 Peritonitis and 1 Pneumonia. The number of deaths from Debility and Diarrhœa is not satisfactory. The mortality all occurred practically in the first half of the year—15 deaths by the end of June. I cannot help attributing some of the ill-health of this Prison to the perfunctory manner in which the Sub-Assistant Surgeon discharged his duties. The Sub-Assistant Surgeon was transferred on the 17th June.

Sukkur Prison, 21·6 per mille. Malaria was very bad in the districts of Sind in 1910. The Civil Surgeon of Sukkur reports it to have been as bad as in 1909. Of the 10 deaths, Malaria (2) contracted the disease outside, Tubercle of lung (2) admitted in fair health weak chest, Pneumonia (2) one of these admitted in fair health weak asthmatic, Dysentery (2) health fair, old, Apoplexy (1), Cerebro-spinal Meningitis (1) contracted the disease outside, developing the disease within six days of admission, and the disease had caused several deaths in his village.

Sind Convict Gang, 20·9 per mille. Of the 12 deaths, Pneumonia (6), Remittent fever (2), Dysentery (2), Cirrhosis of liver (1), Erysipelas (1). The death-rate is 4·6 per mille less than last year. Owing to the overcrowding of the other Sind Jails, drafts were sent freely to the Gang and it was overcrowded throughout the year. Every extreme of temperature is encountered in this Prison, the prisoners working in stone quarries which are intensely hot in the summer and swept by the north and east wind in the winter. Very heavy rains on the 6th, 7th and 8th July resulted in the flooding of the Prison enclosure and entailed great discomfort and exposure to prisoners and the Prison Officers alike. Malaria was very bad in the surrounding district.

Karáchi Prison, 22·7 per mille. Of the 9 deaths, Enlargement of spleen (1) died when out under the Testimony Act; Valvular disease of heart (1) and Tetanus (1) were admitted suffering from the disease of which they shortly died; Diabetes Mellitus (1), Pleurisy with effusion (2), Pneumonia (3). The five cases of Pneumonia and Pleurisy with effusion occurred in the months of January and February when the Prison is swept by cold dust-laden winds. Malaria was prevalent in the districts.

Thána Special Prison, 18·1 per mille. Of the 11 deaths, Plague (1) contracted outside, Pyrexia of uncertain origin (2) one of these was really abscess of the lung, Diarrhœa (2), Enteritis (1), these were probably cases of Dysentery, Tubercle of the lungs (2), Tabes mesenterica (1), Fatty degeneration of heart (1), Intestinal obstruction (1).

Common Prison, 26·9 per mille. 11 deaths. Of these General Tuberculosis (1), Valvular disease of heart (1), Diarrhœa (1), Malarial fever (1) were admitted in bad health suffering from the disease from which they died. Of the remainder Diarrhœa (2), Post febrile insanity (1), Pneumonia (1) were admitted in fair health; and Malaria (1), Pneumonia (1), Peritonitis (1) in good health. An additional Sub-Assistant Surgeon is required for this Prison and the proposal is before Government.

53. The health of Hyderabad 13·6, Kárwár 14·3, Ratnágiri 12·5, Yeravda 11·2, House of Correction 14·9, Rájkot 11·2, Shikárpur 9·3, Bijápur 6·8, Dhulia 11, Dhárwár 5·2, Deccan Gang 4·4 and Aden *nil*, has been satisfactory. Special attention may be directed to the death-rate of the overcrowded Prison of Dhárwár. I attribute the continued low death-rate in this old and overcrowded Prison to the devotion to duty and skill shown by Lieutenant-Colonel Hudson, I. M. S., as Superintendent and Medical Officer. The Deccan Extra-mural Gang has beaten all its previous records by a death-rate of 4·4. An extraordinarily small one in a Gang where the work is of the severest kind and the men are exposed to every vicissitude of weather, and in the past year to unprecedentedly heavy and cold monsoon. The Superintendent and Medical Officer deserve every credit for this result. Mr. Hall is unwearied in his efforts to improve the barracks and sanitary arrangements of the camp; the Prison garden is also a lesson in vegetable culture. During the year the issue of an ounce of molasses with the morning conjee had a decidedly beneficial effect on the general health of the prisoners at the gang.

54. During the past year the extension to the Hospital in Hyderabad Central Prison has been completed—an immense improvement. I am preparing rough plans for a similar extension in Ahmedabad and for a Tubercle ward in Yeravda, which will be submitted to Government when asking for permission to call for plans and estimates. The plans and estimates for the new undertrial ward at Dhárwár are ready and this barrack when built will relieve to some extent the chronic overcrowding of this Prison. An Assistant Surgeon was appointed to Yeravda during the year. This appointment will relieve the Superintendent of the more routine part of his medical duties, enable him to devote more time to other work and will also lead to closer supervision of the Hospital work.

55. The following measures were adopted during the year under report with a view to improve the health of the prisoners confined in our Prisons and

Jails, and are inserted in accordance with the orders contained in paragraph 1 of Government Resolution, Judicial Department, No. 9115, dated 29th December 1896:—

(1) Issue of wheat and rice in lieu of bájri and jowári.

(2) Issue of 2 ounces extra flour and 1 ounce molasses to working prisoners in the Deccan Gang. Issue of 1 ounce molasses to working prisoners in Sind Gang in lieu of 2 ounces of flour.

(3) Issue of extra rations to weakly prisoners and convalescents.

(4) Issue of quinine as prophylactic.

(5) Issue of potatoes and onions in lieu of green vegetables.

(6) Issue of extra warm clothing when considered necessary.

(7) Inoculation by Professor Haffkine's prophylactic serum.

56. Reviewing the health statistics of Subsidiary Jails and Lock-ups, it will be observed that the population has increased from 62,032 in 1909 to 63,425 in the year under report. The daily average strength, number of admissions into Hospital and the daily average sick have been respectively 1,440, 1,230 and 20·7 against 1,384, 1,230 and 18·0 in 1909; and the number of deaths was just the same, *viz.*, 19 as was in 1909, and the death ratio per mille of average strength has fallen from 13·7 in 1909 to 13·2 in the year under report.

Statement No. XV—Chief Diseases.

57. The marginally noted statement shows the diseases chiefly responsible for sick admissions and deaths. Dysentery shows an increase of 73 in admissions but a decrease of 6 in deaths.

The Deccan Gang shows an increase of 21 admissions; the rains were unusually heavy and the prisoners exposed to the inclemency of the weather.

Dhárwár of 21, 27 out of 35 admissions in the monsoon. Dysentery was prevalent in the district.

Thána of 23, 21 admissions out of 29 in the rains.

Sukkur of 21. June to October 20 admissions out of a total of 28.

Karáchi a fall of 20. Of the 9 deaths, 2 were admitted in bad health, one suffering from the disease, and 3 were old men in fair health.

Malaria shows a diminution of 153 admissions with 12 deaths against 10 in 1909. Of the 12 fatal cases, Yeravda 1 admitted suffering from Malarial Cachexia; Common Prison gives 2, one admitted suffering from the disease; Ahmedabad 1, Hyderabad 4, all admitted in bad health and died within four months of admission; Sukkur 2 both died within two months and contracted the disease outside, and Sind Gang 2. Quinine has been issued as a prophylactic in most Jails, as a rule in doses of 10 grains weekly from August to December. The following Prisons diverged from this rule:—Yeravda 10 grains weekly the whole year round; Hyderabad 10 grains twice weekly July to December; Sukkur 7 grains twice weekly throughout the year; Karáchi all men infected 10 grains daily for a month, all new admissions 10 grains for 10 days; Rájkot 20 grains a week from August to November. House of Correction and Kárwár to infected patients, for a long period. Malaria was very prevalent in the Sind Districts. The issue of quinine largely contributed to the good health of the prisoners.

Tubercle shows 23 admissions and 7 deaths against 27 admissions and 16 deaths in the year previous. Anæmia and Debility show 154 admissions with 6 deaths against 101 admissions and 8 deaths in 1909. Of the deaths, 2 in the Yeravda Central Prison from Debility, at Kárwar 1 Splenic Anæmia, and 3 occurred in the Ahmedabad Central Prison from Debility. The increase in the admissions under this unsatisfactory heading is due to Yeravda 17, Deccan Gang 9, Ahmedabad 30. Of the deaths 3 in Sábarmati Central Prison were of men between 46 and 60, all of whom were in the Convalescent Gang; the two in Yeravda were of a man of 65 and of a man admitted to Hospital on his admission where he stayed until his death. The case in Kárwár is returned as one of

Splenic Anæmia, no *post-mortem* was held as the body was claimed by the relatives. The spleen was much enlarged and the liver to a lesser degree. No Malarial parasite could be found in blood. He also suffered from Dysentery with great loss of blood and severe stricture.

The admissions of all other General Diseases show a decline of 71 admissions while the number of deaths show an increase of 7 over the figures for the year previous. The deaths were due to Leprosy (2), Secondary Syphilis (2), Diabetes (2), Dracunculus Medinensis (1), General Tuberculosis (1), Peritonitis (1), Rheumatic Fever (1), Tubercular glands (1), Paralysis (1), Pyrexia uncertain origin (3), Tuberculosis of intestines (1), Plague (1), Tubercle of Peritoneum (1), Tetanus (1), Cerebro-spinal Meningitis (1), Erysipelas (1).

Pneumonia shows a decrease of 6 admissions while the number of deaths shows an increase of 8 over the figures for the past year. The Prisons of Yeravda, Karáchi, Hyderabad and Sind Gang are responsible for these deaths.

Other Respiratory Diseases show a decline of 2 in admissions over the figure for the last year while the number of deaths is stationary.

Diarrhœa shows a diminution over the figures for the year previous, while the deaths show an increase of 7 in the year under report. The Common Prison and the Ahmedabad Central Prison are responsible for these deaths.

Abscesses, Boils and Ulcers of all kinds show a decline of 234 admissions over the figures for the year previous with no death. The Yeravda Central prison and the Deccan Convict Gang are mainly responsible for this decrease.

58. Out of a total number of 18,218 prisoners who were discharged during the year, 9,866 or in other words 54·2 per cent. gained weight against 54·9 in the year previous, 3,133 or 17·2 per cent. lost weight against 16·3 in 1909 and 5,219 or 28·6 per cent. remained stationary as compared with 28·8 per cent. in 1909.

OFFICIAL AND NON-OFFICIAL VISITORS.

59. There were two hundred and seventy-three official visitors during the year for our prisons and 1st and 2nd Class Subsidiary Jails. Eighty quarterly meetings were held during the year and all were well attended. Seven hundred and thirteen visits were paid by official visitors, while two hundred and thirty-seven were paid by non-official visitors.

BUILDINGS.

60. The following allotments were sanctioned during the year for original major works :—

		Rs.
(1)	Quarters for extra warders at Sukkur	5,000
(2)	Subsidiary Jail at Mogulbin	8,900
(3)	Warders' quarters at Karáchi	10,000
(4)	Do. at Ahmedabad	10,000
(5)	Do. at Thána	9,000
(6)	Andheri New Jail	1,25,000
(7)	Warders' quarters at Dhulia	3,500
(8)	Do. at Yeravda	25,500
(9)	Do. at Bijápur	5,000
(10)	Do. at Dhárwár	5,000
(11)	Aden Civil Jail	13,000
(12)	Battery for Press Engines	12,700
		2,27,600

The allotments for the Andheri Jail and the Warders' quarters at Thána were not spent; also a part of the allotment for the Warders' quarters at Yeravda.

In addition to the above, a sum of Rs. 17,523 was allotted for the Discretionary Grant, the whole of which was expended during the year under report. Of this sum Rs. 10,182 went to build quarters for warders at Kárwár, Ratnágiri and Rájkot, and Rs. 1,340 to build quarters for a clerk at Sukkur and Rs. 2,523 for a chemical fire engine for the Yeravda Press.

MISCELLANEOUS REMARKS.

61. During the year 1910, the following Prisons, Gangs and Subsidiary Jails were inspected by me:—

Central Prisons.	District Prisons.	Subsidiary Jails.	Gangs.
Ahmedabad.	Common Prison.	Ahmednagar.	Deccan Gang.
	House of Correction.	Belgaum.	
Hyderabad.	Aden.	Godhra.	Sind Gang.
	Bijápur.	Násik.	
Yeravda.	Dhárwár.	Sátára.	
	Dhulia.	Sholápur.	
	Karáchi.	Surat.	
	Shikárpur.	Alibág.	
	Sukkur.		
	Thána.		

I also paid several visits to His Majesty's House of Correction, the Common Prison and Yeravda.

62. I have reported fully to Government on the pressing question of the pay etc. of the warder staff and the matter is under their consideration. This is a most important matter. No jail can be either penal or reformatory, nor even be a safe place of detention, while the bulk of the warders are men whom their superior officer cannot trust nor the prisoners respect.

63. The juvenile class at Dhárwár has worked satisfactorily during the year. This class now makes batons for the Police throughout the Presidency. Ten juveniles were released during the year. Two who were good carpenters were given tools. One of these is now earning a rupee a day in his native village, the other is in the employment of a large firm. These results may seem small but our methods are crude and hampered in every way. I look to a great improvement in this class and in the results when the proposed alterations are carried out, and the special staff and school master recruited. It should be distinctly understood that this is a class of first convicted juvenile adults who are sent to Dhárwár to endeavour to keep them from the contamination of association with adult criminals whether casuals or habituals. It is not a Borstal system in any sense, as the Borstal system deals with the juvenile adult who has had previous convictions and is in many respects a hard case to deal with. For these a proper Borstal institution would be required, but until there is some real desire evinced by the public to practically assist such youths in obtaining employment and in getting back into the ranks of honest citizens, such an institution would work at a disadvantage and the full benefit to be derived would not be obtained.

64. Assistant Surgeon Petigara has been transferred from the charge he held as Superintendent, Sind Convict Gang, since March 1902. Both as Superintendent and Medical Officer he was unwearying in the discharge of his multifarious duties and I am sorry to lose him. I am, however, glad that he does not altogether sever his connection with the Department as he holds the office of Superintendent of the newly opened Shikárpur Prison in addition to his own duties.

65. The results of the year may be briefly summarised as follows:—The gross cost per head is Rs. 97-1-2 against Rs. 98-2-4 in 1909. The net cost per head Rs. 68-3-0 against Rs. 82-14-0 in 1909. The cash earnings Rs. 2,27,924 against Rs. 90,145 in 1909. The death-rate 14·3 against 17·5 per mille.

66. During the past year my office staff worked well, and the early submission of this report is due to the quick and accurate work of the Head Accountant Mr. Keshav Narayen Ratnaparkhi.

I have the honour to be,

Sir,

Your most obedient servant,

J. JACKSON, M.B.,

Lieut.-Colonel, I. M. S.,

Inspector-General of Prisons,

Bombay Presidency.

STATEMENTS.

		Lbs.	ozs	Ozs.	Ozs.	Drs.	Drs.	Drs.	Drs.	Lbs.		
For Subsidiary Jails (a) ...		1	4	4	6	8	4	4	6	2	1 lb. bájri or jowári flour, 6 drs. salt and 1 lb. firewood.	

Yeráoda Central Prison.—The quantity of condiments was reduced to half in the case of European prisoners from the year 1909 on medical grounds. The quantity of condiments reduced to 3 drs. on medical grounds for all other prisoners. Convict Overseers were given meat on Wednesdays along with convict Warders. The issue of gram dál on Wednesdays on medical grounds.

Kárwár Prison.—Jowári conjee was changed into Rice conjee during the year.

Ratnágiri Prison.—1 lb. rice is given instead of bájri on every Tuesday and Saturday.

Sind Gang.—One oz. of molasses was issued daily with the morning conjee and the flour ration reduced by 2 ozs. except Saturday.

Deccan Convict Gang.—Issue of 2 ozs. extra flour to all working prisoners continued throughout the year. One oz. of molasses issued to every working prisoner excepting those sick prisoners who are on (*d*) dict with the morning conjee from 1st January to 31st May and continued again from 14th July to 31st December 1910.

(*a*) This scale was in force in all the Subsidiary Jails except Wadhwán in which prisoners up to 2 years' sentence are confined and who are allowed the scales appearing in this statement for Native prisoners in District Prisons.

B 2072—25

BOMBAY : PRINTED AT THE GOVERNMENT CENTRAL PRESS.

Annual and Periodical Reports.

Administration Report on the Bombay Prison Department for the year 1910.

No. 3064.

JUDICIAL DEPARTMENT.

Bombay Castle, 24th May 1911.

Letter from the Inspector-General of Prisons, No. 4138, dated the 25th April 1911—
Submitting the Annual Report on the Jails of the Bombay Presidency for the year 1910, together with a statement contrasting the main results of the Administration of the Prison Department for the years 1909 and 1910.

RESOLUTION.—In 1910 the number of prisons was increased by the opening of the Special Prison at Shikárpur. It has been reserved for prisoners sentenced to imprisonment for six months or shorter periods. Habitual offenders are excluded and for the most part the convict officers are themselves short-term convicts. It is hoped by these means to eliminate as far as possible some of the more contaminating influences of prison life and the experiment will be watched with interest.

2. More prisoners were admitted in 1910 into the Prisons, Subsidiary Jails, Lock-ups, and Civil Jails than in the previous year, and as a result several were overcrowded. The health of the convicts, however, did not suffer: on the contrary there were fewer admissions to hospital and the death-rate was only 14.3 per mille, the lowest on record in the Presidency. Particularly remarkable are the low death-rates in the Deccan Gang (4.4 per mille) and in the Dhárwár Jail (5.2 per mille). The Governor in Council agrees with the Inspector-General that great credit for these results is due to Mr. H. A. Hall and Lieut.-Colonel C. T. Hudson, I.M.S.

3. An increase of expenditure naturally followed the increase in numbers; but the cost per head Rs. 97-1-2 was less than in 1909. There was a very marked increase in earnings from Rs. 90,145 to Rs. 2,27,924. This difference is partly due to the increased output of the Yeravda Press and to large issues of Jail-made clothing from the Sábarmati Central Prison, but to a much greater extent to the fact that the cost of raw materials for the use of the Press was less by Rs. 93,368 than in 1909. The Superintendent and Jailor, Sábarmati Central Prison, are to be congratulated on their success in reconciling the convicts to tailoring work which caused so much trouble in the previous year.

4. The number of punishments slightly increased but fewer serious offences were committed. Government are pleased to observe that the arrangements made by the Superintendent of the Yeravda Central Prison for keeping bad characters and men known as ringleaders in disturbances separate from the other convicts have enabled him to maintain discipline without frequent recourse to punishments.

5. There has been a decrease in the number of juvenile offenders sentenced to imprisonment, but the statement on page 3 of the Report shows that some Magistrates still neglect the wishes which have been so often expressed by Government. The Governor in Council finds it difficult to understand on what grounds a child of 14 can have been required to furnish security for good behaviour, or what advantage there can be in sentencing a child of 10 to 4 days' rigorous imprisonment. Government trust that the expectations of the Inspector-General of Prisons with regard to the juvenile class at Dhárwár may be realised, and are pleased to notice that the results of the experiment have so far been satisfactory.

6. There was a considerable decrease in the number of previously convicted convicts admitted into the Prisons and Subsidiary Jails in the year under report. It is not satisfactory that a large number are still convicted and sentenced before they are discovered to be habitual offenders. The punishments meted out to many of these old offenders are in many cases altogether inadequate. Apparently

Digitized with financial assistance from the Government of Maharashtra on 22 July, 2017

many Magistrates entirely lose sight of the provisions of section 348, Criminal Procedure Code, or do not realise the futility of short sentences in such cases.

7. The Governor in Council feels that the Inspector-General and the officers of the Jail Department deserve the highest credit for their zeal and devotion to their arduous and responsible duties.

(Signed) K. W. BARLEE,
Acting Under Secretary to Government.
